

All Within Reach

by Cindy Ritchie

When one realizes that the Divine Consciousness is the Infinite capacity of knowing, our thoughts can then illustrate the qualities of the Divine.

This higher selfhood transcends and relinquishes any identity as human limitation.

A different perspective can then be acknowledged as Infinite ideas, the ideas of freedom, wholeness, love, peace, harmony, joy and perfection are eternal laws of Truth, which is the Divine Life expressing itself, and which can appear as a healing.

So this perspective is a living experience of one's own acceptance and acknowledgment of Divine selfhood. The single Spiritual I is the viewpoint from which one identifies oneself.

To know oneself as God knows you, is the way of renewal, "creation of man made in God's image". It is with this viewpoint that one enters into the Kingdom of God within, which has been awaiting ones acknowledgement of Truth, to be felt, lived and experienced as the artful expression of ones Divine heritage.

God with us - "Immanuel", as our thinking and living, is the pinnacle of Truth.

This consciousness, the thoughts of God, the qualities of love felt and lived are the "fruits of the Spirit", where all is perfect, where there is nothing which needs to be saved, corrected or healed.

All thought is Eternal what else can there be? Be it, the consciousness of Spirit, the structure of infinite ideas, the innate qualities of love, harmony, peace, wholeness, kindness, gentleness, joy, freedom!

To know as One, Eternal One, One Mind as All. This is the wholeness of ones very Spiritual Self. The Single I, the Minds I of Light!
